Subject: Registration Plea for the Water Microbiology Conference 2019

California Water Quality Monitoring Council

Conference URL: <https://waterinstitute.unc.edu/conferences/watermicro2019/>

Dear All,

We are in a bit of a pickle on Water Microbiology Conference 2019. Professionally, we want so much to interact with everyone and learn and share. Financially, it seems that the government shutdown, as well as a number of other factors, have severely impacted our registration numbers. I am writing this plea for everyone planning to attend the conference to register ASAP (ie. within the next 24 hours). Second, I am asking that you also please send this email to as many other colleagues as you possibly can and ask them to do the same (within 24 hours please). We will be forced to cancel the conference if we do not see a quick and significant increase in registrants.

Than you,

John Griffith, on behalf of the Water Microbiology 2019 Organizing Committee
